Toronto, ON · 647-741-2890 · amirreza.nezami28@gmail.com · [linkedin.com/in/amirreza-nezami](https://www.linkedin.com/in/amirreza-nezami) · amirrezanezami.com

PROFESSIONAL SUMMARY

Banking and financial crime risk professional with 5+ years across branch banking, contact centre operations, financial records review, case documentation, and risk-based escalation. Experienced in identity verification, KYC procedures, suspicious activity indicators, source-of-funds documentation, transaction context review, fraud red flags, evidence gathering, and escalation of non-standard or high-risk matters. Completed 25+ AML/KYC case reviews focused on transaction red flags, sanctions awareness, identity inconsistencies, documentation gaps, risk assessment, and investigative judgment. Currently pursuing cybersecurity studies, supporting knowledge of digital evidence, emerging criminal techniques, and financial crime investigation methods.

AML | ATF | Sanctions Awareness | ABAC Awareness | Financial Crime Risk | Case Analysis | Risk Assessment | Evidence Gathering | Case Documentation | Digital Evidence | KYC | Identity Verification | Transaction Monitoring | Suspicious Activity Indicators | Source of Funds Review | Fraud Red Flags | Escalation Judgment | Investigation Support | Regulatory Compliance | Internal Policies | Confidentiality | Excel | MS Office | SQL | Investigation Workflow Support

PROFESSIONAL EXPERIENCE

Administrative Operations & Finance Support Associate | HSA Inc.

Jan 2024 - Present | Richmond Hill, ON

- Reduced issue-resolution time by approximately 20% by building a structured case tracking and escalation system that prioritized open items by risk level, standardized documentation, and improved follow-through on outstanding files.
- Managed documentation, status updates, and escalation notes across 4+ stakeholder groups, ensuring decision-makers received complete evidence packages, accurate timelines, and clear issue summaries.
- Assessed non-standard operational issues independently, gathered supporting records, identified missing information, and escalated higher-risk matters with concise written notes and full documentation traceability.

Financial Records & Fraud Risk Review Associate | SimaStyle

Sep 2022 - Dec 2023 | Markham, ON

- Reviewed digital financial evidence, including bank statements, CRA correspondence, Equifax reports, vendor records, suspicious emails, and account activity, to identify inconsistencies, documentation gaps, fraud indicators, and unusual access patterns.
- Conducted cross-document review across multiple financial and business records, reconstructing account activity, identifying exceptions, and preparing organized findings for decision-maker review.
- Built a source-of-funds and evidence package for a planned \$10,000+ bank transaction, aligning bank statements, business records, and supporting documentation to satisfy banking review requirements.
- Flagged suspicious emails, questionable account activity, and potential impersonation or scam indicators, documenting concerns clearly and supporting timely protective action.

Branch Banking Teller & Contact Centre Representative | Ayandeh Bank

Mar 2019 - May 2022 | Tehran, IR

- Conducted identity verification, KYC checks, transaction review, and customer request assessment across branch and contact centre channels, supporting suspicious activity monitoring in a live banking environment.
- Escalated potential impersonation, unusual account access requests, missing verification details, and non-standard transaction patterns with complete written documentation and supporting notes.
- Processed high-volume banking transactions while maintaining confidentiality, accuracy, AML/KYC discipline, and adherence to internal policies and procedures.
- Assessed customer behaviour, transaction context, and account-service requests to identify red flags, resolve standard matters, and route higher-risk issues to the appropriate internal team.

SELF-DIRECTED AML PRACTICE

Completed 25+ AML/KYC case reviews focused on transaction red flags, sanctions awareness, suspicious activity indicators, source-of-funds assessment, identity inconsistencies, documentation gaps, risk assessment, and escalation judgment, building practical case analysis and evidence documentation discipline aligned with Canadian financial crime compliance expectations.
