

# Amir Nezami

AML Financial Crime Risk Investigator I | Case Analysis | Evidence Documentation | AML/KYC

Toronto, ON · 647-741-2890 · [linkedin.com/in/amirreza-nezami](https://www.linkedin.com/in/amirreza-nezami) · [amirrezanezami.com](https://amirrezanezami.com)

## PROFESSIONAL SUMMARY

Financial services and operations professional with 4+ years of banking, documentation, financial record review, and risk-sensitive escalation experience across branch banking, contact centre support, and administrative finance environments. Brings practical investigation-support exposure through identity verification, transaction red flags, suspicious activity indicators, source-of-funds documentation, confidential case notes, and escalation of non-standard matters. Completed focused AML, KYC, STR, sanctions, and compliance training with 25+ financial crime practice cases, while actively developing cybersecurity and digital-evidence awareness relevant to emerging financial crime investigations.

## CORE COMPETENCIES

Anti-Money Laundering (AML) | Anti-Terrorist Financing (ATF) | Know Your Customer (KYC) & Identity Verification | Suspicious Transaction Reporting (STR) | Sanctions & ABAC Awareness | Financial Crime Risk Assessment | Investigation Support | Case Documentation | Evidence Gathering Support | Source-of-Funds Review | Suspicious Activity Indicators | Transaction Red Flags | Risk Escalation | Confidential Information Handling | Banking Procedures | Digital Evidence Awareness | Emerging Financial Crime Trends | FINTRAC Concepts | Excel & MS Office | Basic SQL

## PROFESSIONAL EXPERIENCE

### Administrative Operations & Finance Support Associate | HSA Inc.

Jan 2024 - Present | Richmond Hill, ON

- Manage documentation control, issue trackers, action logs, and follow-up records across 4+ stakeholder groups, supporting accurate case visibility, management review, and audit-ready operational records.
- Identify and escalate non-standard, incomplete, financially sensitive, or documentation-deficient items with clear rationale, supporting evidence, and next-step recommendations.
- Review invoices, banking-related records, financial documents, and administrative files for accuracy, missing information, irregularities, and resolution requirements.
- Improved reporting traceability by approximately 30% and reduced unresolved follow-up items by approximately 20% through structured documentation, escalation visibility, and disciplined file tracking.

### Financial & Administrative Support Associate | SimaStyle

Sep 2022 - Dec 2023 | Markham, ON

- Reviewed bank transactions, CRA correspondence, Equifax information, billing statements, vendor records, and account documentation to identify irregularities, gaps, fraud indicators, and cost exposure.
- Flagged suspicious emails, unusual account-access indicators, questionable banking activity, and documentation concerns for owner review, leading to bank contact, credential resets, and protective account actions.
- Prepared source-of-funds documentation and supporting financial records for a \$10,000+ bank transaction, creating a complete, reviewable audit trail and clear transaction rationale.
- Organized sensitive financial records, tax documents, payment information, and supporting evidence for review while maintaining confidentiality and accurate file structure.

### Branch Banking Teller & Contact Centre Representative | Ayandeh Bank

Mar 2019 - May 2022 | Tehran, IR

- Verified customer identity before account discussions, account access, and transaction processing, applying KYC, confidentiality, and banking conduct requirements in branch and contact centre environments.
- Identified identity mismatches, unusual account access requests, suspicious behaviour indicators, incomplete documentation, and non-standard transaction/service requests for supervisor review.
- Documented client interactions, risk-sensitive details, unresolved issues, escalation rationale, and required follow-up information to support internal review and consistent case handling.
- Processed deposits, withdrawals, bill payments, account service requests, and daily banking transactions with attention to accuracy, procedure adherence, and transaction red flags.
- Collaborated with branch and support teams to gather missing information, clarify sensitive client issues, and escalate higher-risk matters through appropriate banking procedures.
